## **ANNEXURES TO DIRECTOR'S REPORT FOR THE YEAR ENDED ON 31<sup>ST</sup> MARCH, 2017**

### **Annexure I**

#### **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

The previous continuous efforts of management of the company seems to be successful this year as the company is coming on track after getting itself out of trap of financial sickness. Further the good economic pace of the country after demonetization and launch of Goods & Service Tax (GST) regime has opened the Indian market for the whole industry. Besides these good signs, some negative catalysts still sustains and offering obstacles in the efforts of the management of your company. These negative facts are continuous bad era for Real Estate segment, out of which the company has been expecting handsome cash inflows since last many years. The management of your company is still positive in this segment and expecting revival in this segment also which will further give pace to the company to run faster on the success track.

#### **Industry Structure and Development:**

With GST rollout, India's textile sector is racing against time to align itself with the new indirect tax regime. While the near-term disruptions could take a potential toll on the financial performance of most players, the textile industry as a whole is poised to grow as organized units gain market share back from their unorganized counterparts that currently constitute nearly 60-70 percent of the industry size.

GST will essentially affect companies that cater mainly to the domestic markets. The export-oriented entities would not face headwinds since the input taxes paid by them on the exported output would be refundable in entirety. Comprehensive documentation and streamlining of input claims will only make things considerably easier than before.

The positive impact of GST will be largely felt by companies engaged in manufacturing and/or dealing with fibre and yarn components, since the presence of unorganized units is relatively large compared to the fabric and garment units (where competition is comparatively less and barriers to entry are high due to greater requirement of funds as well as technical know-how). The shift from unorganized to organized is the biggest long-term benefit from GST, notwithstanding the short-term inventory adjustment pangs. The only sub-segment that, prima facie, seems to be adversely impacted is the man-made textiles space, where tax rates have been hiked on man-made fibre and yarn under GST. Increasing use and popularity of synthetic textiles domestically and globally, backed by recent progression and growing competitiveness of India's organised units in comparison to the Chinese players in international markets, is one of the key reasons that warrant some attention towards getting this issue addressed.

In a nutshell with the [GST](#) regime, textiles will eliminate the cascading effect of duty/taxes which will reduce the costs and improve the competitiveness of the textiles exports. "Five per cent [GST](#) on [cotton](#) yarn and [fabrics](#) would help producers with compliance and encourage farmers to grow more cotton and with this low rate, Indian producers would become competitive in the world which will help India's textiles exports grow in coming years.

#### **Opportunities and Threats:**

During the year, the country has seen back to back bold steps taken by the Government of India like demonetization and then implementation of GST. The present statistics shows that after these steps the pace of the economy and GDP growth has slightly declined. This is due to immediate effect of these two decisions of the Government of India. But in the long run both of these two steps must prove to be big contributor towards handsome economic and GDP growth of our country.

According to recent statistics released by the Govt., Foreign direct investment (FDI) in textile sector more than doubled to \$618.95 million during 2016-17 from \$230.13 million in the previous fiscal. This is very good news for the industry and this will offer a lot of opportunities in this industry. This is the core effect of Make in India scheme of the Govt.

Due to over specialization in cotton, the bulk of the international market is missed out, synthetic products in India are expensive and fabric required for items like swimsuit, sky-wear and industrial apparel is relatively unavailable. Further Spinning sector lacks modernization and there is a need of introducing new technology. Processing is the weakest link in the Indian textile value chain, adversely affecting its ability to compete in exports. High power costs and long export lead times are eroding India's export competitiveness across the textile chain. Productivity levels for manufacturing various apparel items are far lower in India in comparison with its competitors.

The management of your company has proved its competence to do well in odd scenario and it will further continue to do well and explore opportunities by passing through and removing black clouds of threats in the industry.

We have audited the internal financial controls over financial reporting of STL Global Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### **Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India(‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
